SIMILARITY).

1. CAPALYTIC ACTIVITY: Hydrolysis of the 1,4-beta-linkages between acetyl-D-glucosamine and N-acetylmuramic acid in peptidoglycan heteropolymers of the prokaryotes cell walls.

1. DOMAIN: THE LYSM REPEATS ARE THOUGHT TO BE INVOLVED IN PEPTIDOGLYCAN BINDING.

1. SIMILARITY: BELONGS TO FAMILY 73 OF GLYCOSYL HYDROLASES.

"Structural and functional properties of the p60 proteins from different Listeria species.";

J. Bacteriol. 174:8166-8171(1992).

-i- FUNCTION: THIS MAJOR EXTRACELLULAR PROTEIN MAY BE INVOLVED IN THE INVASION OF MOMPROFESSIONAL PHAGOCYTIC CELLS BY LISTERIA.

-i- DOMAIN: LYSM REPEATS ARE THOUGHT TO BE INVOLVED IN PEPTIDOGLYCAN BINDING.

-i- SIMILARITY: BELONGS TO THE E.COLI NLPC / LISTERIA P60 FAMILY.

-i- SIMILARITY: CONTAINS 3 LYSM REPEATS.

RT parental autolytics in CNAY MITHE ENZYMES INTACT CELL WALLS INTACT CELL WALLS.

CC CAN COVALENTLY BIND PENICILLIN.

CC CANALYTIC ACTIVITY: Hydrolysis of the 1,4-beta-linkages between N-cc actevyl-p-glucosamine and N-acetylmuramic acid in peptidoglycan.

CC -I- SANALNE LOCATION: Secreted.

CC -I- SUNILARITY: BELONGS TO FAMILY 73 OF GLYCOSYL HYDROLASES.

CC -I- SIMILARITY: CONTAINS 6 LYSM REPEATS.
                                                                                                                                                                                                                                                                                                  Query Match

"Cloning and functional analysis of cDNAs with open reading frames for 300 previously undefined genes expressed in CD34+ hematopoietic stem/progenitor cells.";
Genome Res. 10:1546-1560(2000).
                                                                                                                                                                                                                                                                                                                                                                          block the regeneration of the nervous central system in adults.

Isoform 2 reduces the anti-apoptotic activity of Bcl-xl and Bcl-2.

Instorm 2 reduces the anti-apoptotic activity of Bcl-xl and Bcl-2.

This is likely consecutive to their change in subcellular location, from the mitochondria to the endoplasmic reticulum, after binding and sequestration.

Isografic binding and sequestration.

Isografic Interacts with Bcl-xl and Bcl-2.

Isografic Interacts with Bcl-xl and Bcl-2.

Isografic Interacts with Bcl-xl and Bcl-2.

Isografic Interacts with Bcl-xl and Bcl-2.

Isografic Interacts interacts of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative in the membrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane of the endoplasmic reticulum through 2 putative transmembrane processed in brain and testis and weakly in heart and skeletal muscle. Isoform 2 is widely expressed in brain, skeletal muscle and adipocytes. Isoform 4 is testis-

IN MET CARTON MAINTENERSE TO THE CREB-binding protein.";

IN MAIL GENERAL LOCATION: NUCLEAR:

CC -!- FUNCTION: MAY REPRESENT A CHROMATIN-ASSOCIATED ACETYLTRANSFERASE.

CC -!- SUBCELLULAR LOCATION: NUCLEAR:

CC -!- SUBCELLULAR LOCATION THAT PRODUCES A MOZ-CBP CHIMAERA OBSERVED IN THE TRANSLOCATION THAT PRODUCES A MOZ-CBP CHIMAERA OBSERVED IN THE CREB-BING SUBTYPE OF ACUTE MYELOID LEUGMIA.

CC -!- SIMILARITY: CONTAINS 2 PHD-TYPE ZINC FINGERS.

CC -!- SIMILARITY: BELONGS TO THE MYST (SAS/MOZ) FAMILY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           B
